Re: Commission for Lawyer Discipline vs. Arnold Lewis Levey no. 202005971-Evidentiary
Panel 10-3; San Antonio Office; BODA Number 66468

MOTION FOR REHEARING

Now comes the Appellant, Arnold Lewis Levey, and files this Motion For Rehearing of the Order of Dismissal of the above-captioned appeal for want of prosecution. In support, Appellant shows:

1. Appellant has not been able to file a brief due to his inability to prepare the brief or cooperate with an attorney to prepare the brief as a result of his disability which is due to the stroke he suffered on November 1, 2021. His recovery which has been slowly progressing should allow him to be able to file said brief within the next six months.
2. Granting this motion and allowing the Appellant this extra time should allow him to file the brief.
3. The retention of an attorney may result in a settlement or dismissal of the case on other grounds.
4. The extension of time will result in no harm.

WHEREFORE, APPELLANT prays that this appeal not be dismissed and that he be granted for time to pursue the appeal.

Signed this 26th day of November, 2024.
